

BAGGELBOY

Hello

and welcome to the art and illustration of Alan Rogerson.

I like to draw a funny little world of strange and unusual things. An individual mixture of surrealist pop imagery based on the world I think I see. It all comes from the fun side of our darker lives, the fairy tales that Grandma used to tell us and our thoughts that wake us up in the middle of the night. I then mix things up with a little bit of day time television, over heard conversations and the arguments I have with myself.

It seems to work.

Black and White Thinking

In 2006 and I started
drawing a comic
blog thing called
Cowboydog.

A slightly twisted
collection of single
panel cartoons full
of dark humour,
death, destruction,
murder and mayhem
with a touch
of nonsensical
annihilation.

It helps me make
sense of the world.
